EIK AM600 Amphibious Transporter

THE MOVING WORKSHOP

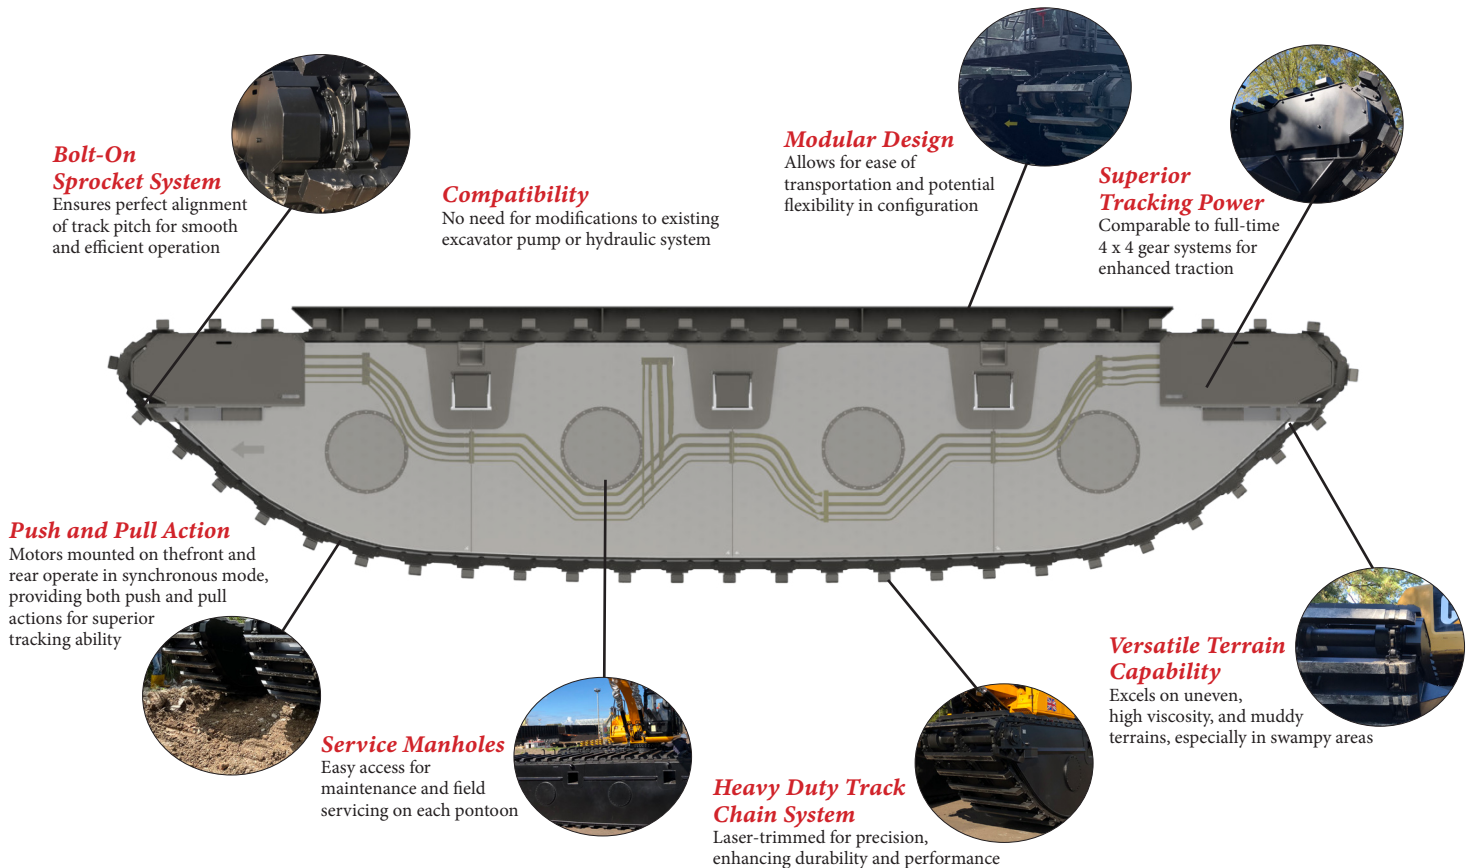

Amphibious Transporter

Amphibious excavator transporter often hailed as marvels of modern engineering, seamlessly navigate both land and water, unlocking new possibilities in industries ranging from construction to environmental restoration. The versatile machines merge the power of conventional excavators with the ability to traverse aquatic terrains, offering unparalleled flexibility in challenging work environments. As we delve into the intricacies of these innovative vehicles, we'll explore their applications, advantages, and the technological breakthroughs propelling them into the forefront of specialized machinery.

EIK AMPHIBIOUS TRANSPORTER, aptly dubbed "The Moving Workshop", is meticulously crafted for operation in marshy, swampy terrain, soft landscapes, and open water environments. Comprising an EIK undercarriage featuring three beams and a central frame, along with an upper structure housing the cabin, engine, and platform, This powerhouse of engineering excellence is set to revolutionize the way you think about transporting heavy loads. With its unparalleled capacity and adaptability, EIK Amphibious Transporter brings a new level of efficiency to your operations, turning any terrain into a potential production hub. Whether transporting passengers or equipment, this versatile platform accommodates a spectrum of applications, aligning seamlessly with the distinct models of EIK undercarriages.

X-Model	AM200X	AM300X	AM350X	AM450X	AM600X
Length	9,630	10,840	11,840	11,760	13,430
Width (pontoon)	1,620	1,920	1,950	2,150	2,230
Recommended total width**	5,500	6,500	6,500	7,000	7,000
Height (pontoon)	2,020	2,020	2,030	2,190	2,390
Total height	2,120	2,120	2,130	2,290	2,490
Bouyancy without supplementary pontoon	37.5t	51t	58t	67t	85t

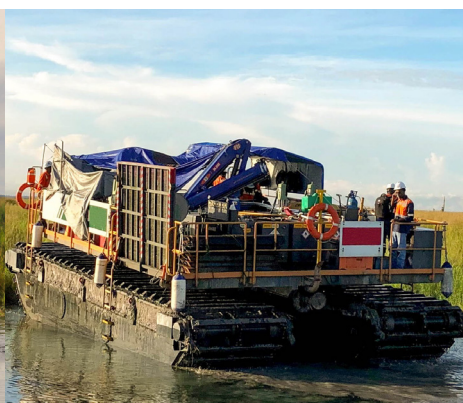

Propelled by our groundbreaking ‘multi-synchronous hydraulic motor direct drive’ system, the high-performance amphibious excavator underscores EIK’s leadership in design innovation. This patented technology serves as the cornerstone of our amphibious excavator, setting it apart in terms of efficiency and functionality. The undercarriage design not only ensures exceptional performance but also boasts an incredibly low ground pressure, rendering it the sole undercarriage system capable of supporting excavator operations on swamps and soft terrains. Safety takes center stage with a thoughtful design feature – the ability to float on water. This ensures versatility and adds an extra layer of precaution, making the EIK amphibious excavator a standout choice in environments where land and water seamlessly converge.

From Earth to Water, Efficiency Never Waivers with EIK’s Amphibious Transporter!

Elevating Precision and Efficiency:
Introducing Our Upgraded Laser Cutting Machines!

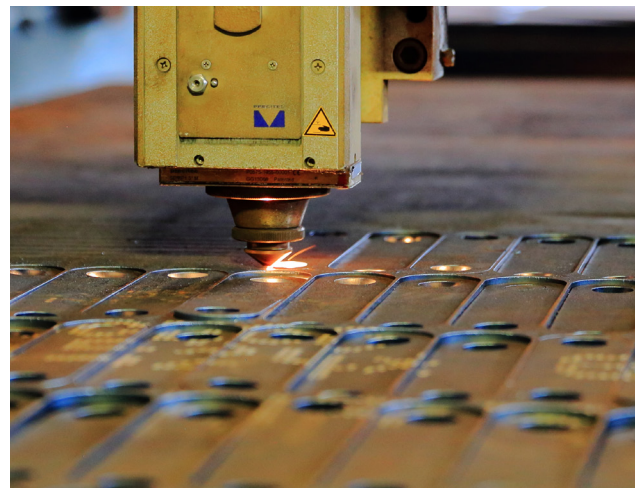

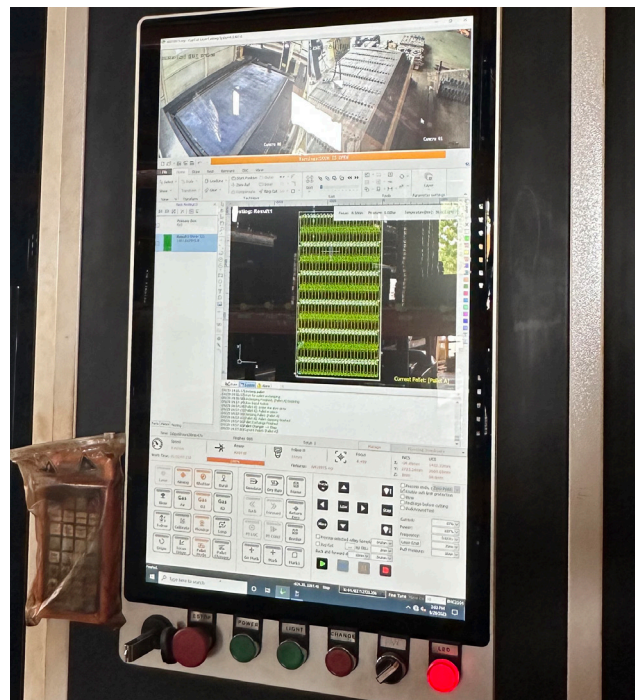

At EIK, we believe in setting new standards of excellence, and our latest upgrade is a testament to that commitment. We have recently made a significant investment in the upgrade of three cutting-edge laser machines, setting a new standard for precision and efficiency in heavy machinery attachment manufacturing.

Redefined Precision: The newly upgraded machines boast features that elevate precision to unprecedented levels. Each cut is executed with meticulous accuracy, ensuring that every attachment meets the exacting standards. With this advancement, we are able to craft components with even tighter tolerances and finer details.

Efficiency in Overdrive: Time is of the essence, and we understand the critical importance of timely deliveries for your projects and site works! With these new machines, we have significantly reduced lead times and optimized our production processes. This translates to quicker turnarounds on your orders without compromising on quality.

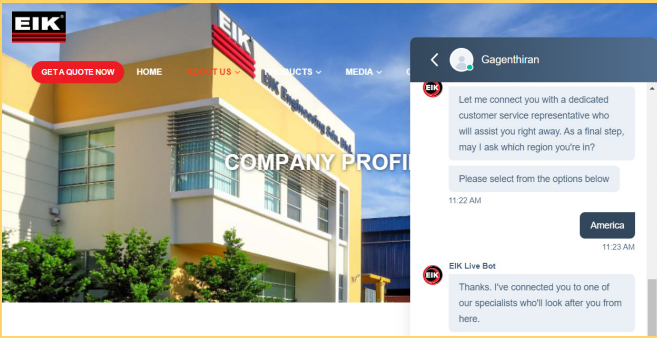

Savings Passed On to You: Streamlined production processes result in savings that we pass on to you. By streamlining our processes, we're not only saving time but also reducing waste. This means we can continue to offer you high-quality attachments at competitive prices.

This investment underscores our unwavering commitment to your satisfaction and success. We firmly believe that by harnessing the power of cutting-edge technology, we're better equipped to serve your evolving needs and surpass your expectations!

Elevating Customer Support:

Introducing Our LiveChat Feature!

How to Access our LiveChat

Engaging with our LiveChat couldn't be simpler. Visit our website - www.eikengineering.com, and look for the LiveChat support icon in the bottom corner. Click to open the chat window, type your question or request, and we'll be there to assist you every step of the way.

In our ongoing quest to enhance your experience with EIK, we are thrilled to introduce a powerful tool that will revolutionize the way we connect: our brand-new LiveChat feature. This dynamic addition to our website is set to revolutionize your experience with EIK, providing swift, personalized assistance right when you need it.

Our goal is to make getting the support you need as seamless as possible. Our LiveChat is designed with simplicity in mind. Just click the chat icon on our website, answer a few quick questions, and you'll be connected with a knowledgeable representative who can assist you in real time. No long waits, limited automated responses – just efficient, effective support.

Whether you're looking for information, troubleshooting a problem, or simply want to chat, our team is here to make sure you get the help you need. Together, we'll ensure that it continues to exceed your expectations and elevate your interaction with EIK!

Reconnecting, Rejuvenating, and Ready to Roll!

At EIK, we have always believed that our most valuable assets are our dedicated and hardworking team members. Our commitment to excellence is not just about manufacturing top-quality heavy machinery attachments. It's also about creating a supportive and motivating work environment for our team.

The past three years have presented unprecedented challenges, yet our team has risen to the occasion with unwavering commitment. In recognition of their exceptional efforts, we recently embarked on an unforgettable journey to the tropical paradise of the Tioman Island. It was a well-deserved opportunity for our team to come together, bond, and celebrate our unity in overcoming adversity.

For three days and two nights, our team immersed themselves in the beauty of Tioman Island. It was a much-needed respite from the daily grind, allowing everyone to recharge and reconnect with their colleagues outside of the working environment. The trip wasn't just about leisure; it was an opportunity for team members to forge stronger bonds and camaraderie. From snorkeling in crystal-clear waters to adrenaline-pumping team battles, every moment was filled with laughter, shared experiences, and a renewed sense of unity.

As the sun dipped below the horizon on the final evening, we gathered for a special awards ceremony. It was a moment to recognize outstanding contributions and celebrate milestones achieved throughout the pandemic period. The applause echoed our appreciation for every team member's dedication.

EIK Staff Retreat 2023, Tioman Island, Malaysia

Your Support Matters!

We'd like to extend our heartfelt thanks to you, our valued customers, for being a part of our journey. Your trust in us and our products has allowed us to recognize and reward our incredible team members for their hard work. As we return from this memorable getaway, we are reenergized and inspired, ready to redouble our efforts in providing top-tier heavy machinery attachments!

**“We Build With Pride,
You Use With Trust.”**
